ENERGY SOLUTIONS

COMPANY

About LITHTECH

Lithtech has its research and development base in Germany and its world class manufacturing base in China.

The company is a global energy solutions provider. Catering to off-grid requirements of telcos, Hospitals, Hotels, The Marine industry, Residential estates.

EV Charging ports and numerous other commercial and industrial sectors.

Our innovative solutions not only aid in reducing carbon emissions but also demonstrate clear ROI. They can potentially cut energy costs for our clients by an impressive 50% or more.

The procedure we adopt for the commercial and industrial sector is simple:

Our seasoned engineers visit your establishment to conduct a comprehensive energy audit. This will give us a clear idea of your energy consumption and spend And allows us to tailor -make a solution that will effectively reduce your cost. And there's more - we've curated packages to cater to diverse needs.

We have the Lithtech Solar Mini, Lithtech Solar Plus, Lithtech Max and Max Plus and the Lithtech Solar Luxury.
